CAREER OBJECTIVE

Results-driven Computer Science graduate with strong specialization in UI/UX design, seeking a position as a UI/UX Designer where I can apply my skills in user research, wireframing, prototyping, and interaction design to create intuitive and user-centric digital products. Passionate about solving complex problems with human-centered design and leveraging data-driven insights to improve user experience and product usability.

SKILLS

- User Interface (UI) Design
- User Experience (UX) Design
- Information Architecture
- Wireframing & Prototyping
- Interaction Design
- User Research & User Interviews
- Figma
- Design Systems
- Responsive Web Design

PROFESSIONAL EXPERIENCE

UI/UX Designer. (Freelancer and Remote Work)
Amman-Jordan
Aug/2026 – Present

Projects:

Mobile Banking App (Figma – Personal Project)
• Designed a complete user flow and interactive prototype for a mobile banking application using Figma.
• Created wireframes and high-fidelity screens focused on intuitive navigation and clean visual hierarchy.
• Applied user-centered design principles and accessibility standards to improve usability.

E-Commerce Website Redesign (Figma – Personal Project)
• Redesigned the user interface of an online store to improve product discovery and conversion.
• Developed responsive layouts and prototype versions using Figma.
• Conducted secondary user research and incorporated best practices in modern e-commerce UX patterns.

Key Responsibilities:

- Conducted user research and usability testing to identify user needs and pain points.
- Designed wireframes, user flows, and low/high-fidelity prototypes using Figma.
- Collaborated with cross-functional teams (developers, product managers, stakeholders) to deliver engaging user experiences.
- Applied interaction design principles to create responsive, accessible, and scalable interfaces.
- Translated business requirements into intuitive design solutions and UI components.
- Utilized design systems and style guides to maintain visual consistency across projects.
- Analyzed user behavior metrics and implemented design improvements based on user feedback.
- Ensured accessibility compliance (WCAG standards) across all digital products.
